

Below is a list of the recipients of the Lawson Medal, category A (given for a single contribution to botanical knowledge of outstanding distinction) with the year of their awards and other distinctions they received (which award and the year they received it). For some of the recipients, the list of the distinctions is not exhaustive.

Names of scientists involved in the creation of the Association are written in blue. The asterisks behind a name indicate that the person has been a President of the Association.

Thanks to all those who have provided me with photographs and to those who have actively helped me in finding some of the photographs.

F.C. Guinel
March 2025

Job Kujit

1971 – A

For his book

“The Biology of Parasitic Flowering Plants” (1969)

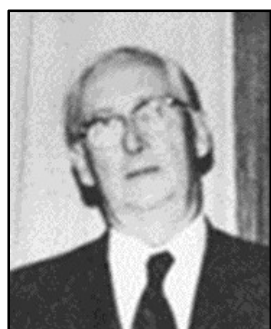

Mildred Katherine Nobles

1972 – A

For her work on the cultivation and identification of wood-rotting fungi

Fellow of Royal Society of Canada (1963)

Marvin William Bannan

1973 – A

For his work on the vascular cambium of conifers

Fellow of the Royal Society of Canada (1952)

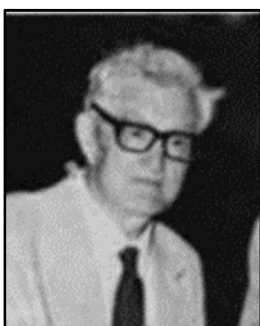

Rolf Sattler

1974 – A

For his book “Organogenesis of flowers: Photographic text atlas” (1973)

Fellow of the Royal Society of Canada (1982)

Ronald Darnley Gibbs

1978 – A

For his four-volume book

“Chemotaxonomy of Flowering Plants” (1974)

Fellow of the Royal Society of Canada (1939)

Bernard René Baum

1979 – A

For his book "Oats: Wild and Cultivated- a Monograph of the Genus *Avena* L. (Poaceae)" (1977)

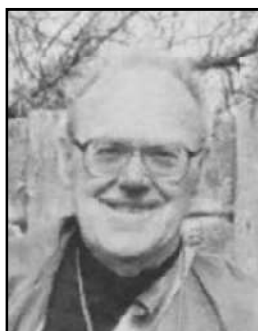

Fellow of the Royal Society of Canada (1981)

Evelyn Chrystalla Pielou

1984 – A
